Ctrl. No. 2091 -

1. The ABC+: Advancing Basic Education in the Philippines Project has been supporting the

Department of Education's (DepEd) and the Ministry of Basic Higher and Technical Education (MBHTE) in implementing innovative approaches to ensure access to a quality education, with interventions focusing on improving early reading, math, and social and emotional skills for early grade children (kindergarten to grade 3, or K-3) in the Philippines. The project aims to benefit up to 100,000 pupils in the Bangsamoro Autonomous Region in Muslim Mindanao (BARMM). ABC+ partners with the Government of the Philippines through the Department of Education (DepEd) central, regional and division-level offices in these areas. In BARMM, the ABC+ project is implemented directly under the Office of the Minister of the Ministry of Basic Higher and Technical Education.

2. Though significant strides have been made following the implementation of the K to 12 program, critical challenges remain. National assessments conducted by DepEd indicate that many learners in the early grades are struggling to meet the minimum proficiency standards in language, literacy, and numeracy.

With these challenges in mind, ABC+ will provide targeted training for teachers in the Bangsamoro Autonomous Region in Muslim Mindanao region specifically in the Maguindanao divisions to improve instruction in K-3 classrooms. The project will therefore align all teacher training for teachers with DepEd's approach to helping learners bridge from their mother tongue to Filipino and English.
